Product Information & Ingredients

night cream lauren murphy

Recommendations For Use

lauren murphy, Night Cream Instructions, use at night after cleaning your face and cleansing. I would recommend using a small amount and dotting it over your face then massaging this into your skin. Only apply a very thin layer to the areas you feel are oilier (e.g. T-Zone). I have used oils that will balance sebum production and oils that have a lower comedogenic rating so your pores do not get clogged.
