Product Information & Ingredients

Oil Cleanser Monni Hardstone

Recommendations For Use

Monni Hardstone, this Cleansing Oil can be used on its own to cleanse your skin or as a two step cleanse (i.e. Korean Skincare Routine) to remove your makeup/cleanse your skin. The second step in the Cleanse Routine would be to use our Cleansing Lotion after the Cleansing Oil. I recommend only cleansing once per day, in the evening, as you don't want to continually remove the natural oils from your skin by over cleansing. Our products have been formulated to balance sebum production so your skin will begin to naturally balance out. Once this happens you will begin to notice a natural glow over your face. This Cleansing Oil has been designed with Essential Oils that will help to exfoliate the pores. It is recommended that you do a gentle exfoliation once per week using the simple method which can be found on the Skincare Routine page of our website. For your morning routine, all you need to do is splash your face with water to freshen up. No need to cleanse at this time.

To use, pour a small amount of Cleansing Oil into the palm of your hand and gently massage over your face, including the eye area if you want to remove eye makeup. Take a damp face washer or damp cleansing pads and remove the oil from your face. This can be done for a second time if you have used a heavier amount of makeup on your face. Take care not to get the oil in your eyes when using to remove your eye makeup.

This Cleansing Oil can be used in the shower, however care needs to be taken so as not to allow any water to enter into the bottle.

You can then move onto the next step of your Skincare Routine ~ Cleansing Lotion.

For Best Results

It is recommended that you strip back your skincare routine to the basics and start with a blank slate. It is also recommended that you do not use other new skincare products while you are testing our products on your skin. The reason for this is you will not really know which of the products caused a reaction if you introduce too many at one time. If you usually do not have a problem with reactions on your skin, you should not have a reaction.

Care & Storage Instructions

Store below 25 degrees celsius. Keep out of direct sunlight. Store in a dry place. Do not allow water to enter your product.

Directions & Warnings Before Use

Apply a patch test first in the area of use. Stop using this blend immediately and seek medical advice if you have an allergic reaction or it causes irritation. For external use only. Keep out of reach of children.

Our promises to you

We go to great lengths to hand select every ingredient. Please do not hesitate to let us know if you are not having the desired effect after using this product for the first 6 weeks. We will ensure that we analyse your needs further and make the necessary adjustments to your formulation. We select only natural and organic ingredients in order to formulate products that are not only gentle on your skin but are also effective. Each of our ingredients goes through a selection process to ensure the highest quality. Please do not hesitate to contact us if you have any questions or concerns about any of our products. We would be happy to help.
